

IN Malawi- Central Africa

The anaesthesia department appreciates the support from the Anaesthesia World Wide in the areas of equipment and technical practice.

The initiatives of Dr. Thomas from College of Medicine - Malawi and AWW Partners like Dr Salvatore and Katie in Europe have brought great change and improvement in equipment and theatre set up.

Left back; **Joel moyo**----anaesthetist
Right Back—**Stella Chakachadz.a** –anaesthetist

New set-up provides easy access to Anaesthetic accessories-we are on track with 5s programme in Quality Programme

So far we are using draw over systems in our theaters. We will still be working with our colleagues in this World Wide Anaesthesia project, spearheaded by Dr. Salvatore and Dr Thomas who will be installing Circle System anaesthesia machine, which will be the first of its kind in district anaesthesia practice in Malawi. This will be done as soon as we finish rehabilitation of our two theaters.
